

GrindTec 2022 - March 15 - 18 - Messe Augsburg

Press Release

May 17, 2021

GrindTec cooperates with DeburringEXPO

GrindTec organizer AFAG is currently establishing a cooperation with DeburringEXPO in Karlsruhe, fairXperts GmbH & Co. KG. DeburringEXPO is Europe's leading trade fair for deburring technologies and precision surfaces. Based on common intersections such as surface processing, surface finishing, polishing, deburring, edge rounding or brushing technology, the cooperation should lead to an even more intensive networking of the complementary trade show focal points.

An obvious possibility is the mutual exchange of theme parks. This means that as early as next October, a presentation on the topic of "Grinding Technology" will be shown at DeburringEXPO (12 - 14.10.21); in return, a theme park on "Deburring Technology" will come into play at GrindTec 2022 in Augsburg in March 2022.

Professor Dr.-Ing. Wilfried Saxler, Managing Director of the technical sponsor of GrindTec, the FDPW, comments: "GrindTec is specialized in the field of manufacturing technology and in particular in cutting with geometrically indeterminate cutting edges. We are therefore pleased to be able to offer the partners of DeburringEXPO an additional, established international platform at GrindTec."
